## CEENBot Kick-Off

The Peter Keiwit Institute hosted a kick-off of the CEENBoT program for teachers from each of the schools who will be receiving CEEN-BoTs as part of this grant.

**There was 100% participation from each of the schools included in the grant!**

As part of a grant Dream It. Do It. received from the Midlands Community Foundation, the following schools will receive 10 CEENBots each plus training: *Papillion La-Vista High School, Papillion La-Vista South, Conestoga High School, Louisville High School, Elmwood Murdock High School, Plattsmouth High School, Weeping Water High School, 2 CEENBots for DIDI.*

The CEENBot program is developed and maintained by the Peter Kiewit Institute in Omaha, Nebraska. The ready-made education lesson plans are an educational tool used in STEM classes (Science, Technology, Engineering, Math) are easily accessible on-line and allow

teachers to integrate and manipulate the plan to fit into their current instruction.

Teachers from the participating schools were able to get a first hand look at the CEEN-BoT, view the on-line lesson plans and interactive web-site, see how easily it is to incorporate the CEENBoT into current curriculum. They also planned the next steps for training and getting the CEENBoT into their classrooms as soon as possible.

## 2009 Fall Career Dream Team
